

A college guide with a vision of a better world, filled with the most interesting, ethical, engaging and unique colleges in the country. It profiles * environmental liberal arts colleges * work colleges * colleges teaching peace and social justice * innovative state colleges * a college that travels on a school bus * colleges where students grow their own organic food * international programs The graduate section profiles an array of programs from International Health and Environmental Law and the Peace Corps-based graduate programs. And there are featured essays by seminal thinkers Matthew Fox (Original Blessing, Creation Spirituality, The Reinvention of Work) and Jeremy Rifkin, (The Biotech Century and The End of Work) as well as practical advice from AmeriCorps. No wonder this guide gets passed hand to hand among teens, and makes their parents say I wish I had gone to one of these colleges!
