

A concise, easy-to-refer-to handbook of common conditions seen in Podiatry practice and how to treat them. Each condition is discussed in a standard way that will be familiar to most Podiatrists - assessment, including history and examination, and management. The book is laid out into bodily sections to make a diagnosis easier, for a heart condition select the Heart Chapter, the same applies for shoulder, knee, foot or neck etc. This is a must have book for students and other healthcare professionals. This edition is completely up to date with the very latest information and includes national guidelines on treating major diseases seen in primary care.
