

Astronauts and What They Do

The astronaut does what nearly no one else does: goes into space with the space shuttle, completely ready, with his or her seatbelt buckled up. The engines start. 3 2 1 GO! Very soon the space shuttle is high above the clouds. First the astronaut flies through the Earth's air and then they arrive in black space. There everything floats even their toothbrush! Time to get to work in the space station. An instructive, informative book for young children about the astronaut, the space shuttle and space travel.

In 1958, the National Aeronautics and Space Administration (NASA) adopted the word astronaut (meaning sailor among the stars) for the men and women they Before they can fly in space, astronauts have to undergo hundreds of hours of training. This is split into three main sections. - 5 min - Uploaded by SciShow Kids You may have dreamed of being an astronaut, or maybe that's what you want to But how do Astronauts and What They Do (Book) : Slegers, Liesbet : An instructive, engaging book for children about astronauts, the space shuttle and space travel--Page Astronauts are adventurers and scientists who work in space.
