

# Gerontological Nursing: An Advanced Practice Approach

Designed to supplement adult, family, and geriatric courses in nurse practitioner programs, this book uses a case study approach to present practical information about the clinical management of the older adult. **KEY TOPICS:** It focuses on common problems of the geriatric in acute, community and long-term settings. Comprehensive coverage of assessment and diagnostic tools, cognitive and ethical issues, and the planning of care encourages the development of critical thinking and decision-making skills. Clinical pearls and vignettes highlight information necessary for effective geriatric care. Nurse practitioners, nurse practitioner students, advance practice nurses.
