

# Experimental Man: What One Mans Body Reveals about His Future, Your Health, and Our Toxic World

Bestselling author David Ewing Duncan takes the ultimate high-tech medical exam, investigating the future impact of whats hidden deep inside all of usDavid Ewing Duncan takes guinea pig journalism to the cutting edge of science, building on award-winning articles he wrote for Wired and National Geographic, in which he was tested for hundreds of chemicals and genes associated with disease, emotions, and other traits. Expanding on these tests, he examines his genes, environment, brain, and body, exploring what they reveal about his and his familys future health, traits, and ancestry, as well as the profound impact of this new self-knowledge on what it means to be human.David Ewing Duncan (San Francisco, CA) is the Chief Correspondent of public radios Biotech Nation and a frequent commentator on NPRs Morning Edition. He is a contributing editor to Portfolio, Discover, and Wired and a columnist for Portfolio. His books include the international bestseller Calendar: Humanitys Epic Struggle to Determine a True and Accurate Year (978-0-380-79324-2). He is a former special producer and correspondent for ABCs Nightline, and appears regularly on CNN and programs such as Today and Good Morning America.
