

Finance, Budgeting & Quantitative Analysis: A Primer for Nursing Home Administrators

Finance, Budgeting & Quantitative Analysis: A Primer for Nursing Home Administrators is a comprehensive guide designed specifically to help long-term care managers produce, present, and defend the departmental budget. Author Brian Garavaglia, Ph.D., FACHCA, offers new and updated tips and tools that break down the confusing and often foreign, financial side of healthcare. This one-of-a-kind resource offers step-by-step instructions, and helpful charts that translate the confusing language, number crunching, and report reading into information that managers can apply to budget planning and preparing in long-term care settings.

Finance, Budgeting & Quantitative Analysis: A Primer for Nursing Home Administrators will give you:

- Concise explanations of the finance and budget cycle in nursing homes for non-financial professionals
- Real-world examples and case studies that illustrate the right way to manage finance and budgeting
- All the forms necessary to successfully manage the budget
- Clarification of how revenue and budgeting intersect and the effect it has on the bottom line
- Description of the SNF and PPS revenue challenges and how they affect financial planning
