

Furnishing the latest interdisciplinary information on the most important and frequently the only investigational system available for discovery programs that address the effects of small molecules on newly discovered enzyme and receptor targets emanating from molecular biology, this timely resource facilitates the transition from classical to high throughput screening (HTS) systems and provides a solid foundation for the implementation and development of HTS in bio-based industries and associated academic environments.

Tulipmania: Money, Honor, and Knowledge in the Dutch Golden Age, Hieroglyphics (Treasure Chests), Why the Social Sciences Matter, After the Ecstasy, the Laundry: How the Heart Grows Wise on the Spiritual Path by Jack Kornfield (Oct 2 2001), Magic Bullets, Lost Horizons: The Rise and Fall of Antibiotics, Clinical Signs in Small Animal Medicine,

High Throughput Screening: The Discovery of Bioactive Substances - CRC Press Book. Virtual screening for the discovery of bioactive natural products. compatibility of NPs with modern robotized high throughput screening (HTS) technologies. Natural Compounds as Drugs Volume I pp 211-249 Cite as compatibility of NPs with modern robotized high throughput screening (HTS) technologies. Virtual Screening Pharmacophore Model Bioactive Natural Product Natural Product High Throughput Screening: The Discovery of Bioactive Substances find Sigma-H6285 MSDS, related peer-reviewed papers, technical documents, similar Broach JR, Thorner J (1996) High throughput screening for drug discovery.
