

# Nomenclator Generum Et Familiarum Diplopodorum II: A List of the Genus and Family-Group Names in the Class Diplopoda from 1958 Through 1999 (Pensoft Series Faunistica, 20)

This management tool for the discovery and analysis of biodiversity is a comprehensive taxonomic catalogue of organisms. Using the example of a previous publication on Diplopoda by C.A.W. Jeekel in 1971, this volume lists all generic and family-group names in the Diplopoda described between January 1958 and December 1999 with full literature citations. The volume can be used as a tool to facilitate the science of Diplopodology and to help discover and describe this species worldwide.

Familiarum Diplopodorum II: A List Of The Genus And Family-Group Names In. The Class Diplopoda From 1958 Through 1999 (Pensoft Series Faunistica, 20). antenomero del resto de Diplopoda esta subdividido (= antenomos 2 y 3 en ..
