

PEPFAR Implementation: Progress and Promise

In 2003, Congress passed the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act, which established a 5-year, \$15 billion initiative to help countries around the world respond to their AIDS epidemics. The initiative is generally referred to by the title of the 5-year strategy required by the act--PEPFAR, or the Presidents Emergency Plan for AIDS Relief. PEPFAR Implementation evaluates this initiatives progress and concludes that although PEPFAR has made a promising start, U.S. leadership is still needed in the effort to respond to the HIV/AIDS pandemic. The book recommends that the program transition from its focus on emergency relief to an emphasis on the long-term strategic planning and capacity building necessary for a sustainable response. PEPFAR Implementation will be of interest to policy makers, health care professionals, special interest groups, and others interested in global AIDS relief.

PEPFAR Implementation: Progress and Promise (2007) PEPFAR, the largest bilateral initiative for HIV/AIDS funding, is one of many efforts taking concerted PEPFAR Implementation: Progress and Promise by Board on Global Health (2007-09-17): Board on Global Health Youth and Families Board on Children PEPFAR Implementation: Progress and Promise.
