

The Mystic Princesses and the Whirlpool

When the Children of Ares nearly kidnap Princess Harmonie in New York her brother Eros moves her to Hawaii, where she meets her new protectors the Mystic Princesses. The princesses are the daughters of the elemental gods and goddesses who learn they have inherited elemental powers. They learn to use their skills while playing in Hawaii. Catie turns the princesses into birds, and they soar up into the clouds and creates rainbow water slides for them to glide down to the ocean after turning them back into girls. They learn these and other powers are to be used to protect Princess Harmonie from her siblings, the Children of Ares, who want to fight and cause wars. How would you feel if someone tried to kidnap you, and you had to flee to Hawaii to live with people you don't know? Have you ever wanted to ride a dolphin or dreamed of playing on a rainbow as if it were a waterslide? When the Children of Ares find the princesses in Hawaii, will the princesses be able to save Harmonie with their newly acquired powers? Note: The second book in the series, *The Mystic Princesses and the Magic Show*, is now available.
