Expert educators Joseph Regezi, James Sciubba, and Richard Jordan provide a quick reference that's ideal for the lab, NBDE review, or chairside use! Organization of oral and maxillofacial diseases by clinical appearance ? such as red-blue lesions or pigmented lesions ? matches what you would expect to see upon a patient's presentation, and provides a practical tool for developing differential diagnoses and planning treatment. Nearly 1,000 full-color clinical photographs, photomicrographs, radiographs, and drawings help you learn to identify lesions and disease states. An atlas-style Clinical Overview section makes it easy to find key information, with one page showing clinical photos of common conditions and the facing page listing symptoms, causes, and significance.
